WEAR IT HIGH; WEAR IT LOW; STRAP IT ON YOUR BACK + YOU'RE READY TO GO.... ANYWHERE, ANY WEATHER

Simply carry by the handle [1] or clip the two top holes to carry over the shoulder at full size; Clip the two lower holes to use half size like a messenger then carry cross-body [2] or on your back [3] and flip-it for night time visibility [4]; Clip lower holes and thread through the handle and you have a backpack [5] – adjust length to fit. Or, clip one side high and one side low – for that half-full sloppy over the shoulder “look”. Try it... it looks great :)
